ATM Training Simulator – Python

ATM Training Simulator is a Python console app that mimics basic banking tasks—deposit, withdrawal, and balance check. It's built with modular design and smart error handling, making it a great hands-on tool for learning core programming logic.

Portfolio Website – HTML, CSS, JavaScript

Designed a personal portfolio showcasing projects, resume download link, and contact form with form validation.

Career Target

- Front-End Developer
- Python Developer
- Full Stack Web Developer
- Software Engineer (Trainee)

Hobbies & Interests

- Exploring new tech & tools
- Participating in coding challenges
- Reading self-growth books
- Contributing to open-source projects
